09 - 11 December 2026

Organised by

Department of Holistic Education

A Unit of Vidya Bharti Institute of Training & Research Trust

About TEJAS

TEJAS (Talent Exploration for Junior Aspiring Scholars) is an independent, multidisciplinary, and future-oriented educational initiative administered by the Department of Holistic Education, a unit of Vidya Bharti Institute of Training and Research Trust, under the guidance and support of Vidya Bharti– North Zone.

TEJAS is designed as a long-term national platform dedicated to identifying, nurturing, and empowering the potential of young learners. It seeks to inspire students to discover their inner abilities, strengthen their academic foundation, and develop the confidence to contribute meaningfully to society and the nation.

The vision of TEJAS extends beyond conducting examinations. It aims to cultivate talent, research aptitude, innovation, leadership, entrepreneurship, personality development, and a spirit of nation-building among students. Through a comprehensive and holistic approach, TEJAS encourages learners to grow not only as successful students, but also as responsible citizens, future innovators, and lifelong learners.

Unlike conventional Olympiads that are often limited to tests, ranks, and certificates, TEJAS provides an integrated learning ecosystem that connects students, teachers, and schools with opportunities for advanced learning, research, innovation, mentorship, and exposure to higher educational institutions.

Current TEJAS Streams

- **TEJAS Mathematics (Classes III–X) —** develops logical reasoning, problem-solving abilities, conceptual understanding and numerical confidence.
- **TEJAS English (Classes III–X) —** strengthens language proficiency, comprehension, communication skills and analytical thinking.
- **TEJAS Future Tech (Classes VI–X)** — encourages scientific curiosity, technological awareness, innovation, and readiness for future-oriented learning.

These streams are designed to provide students with a balanced platform for academic growth, skill development, and future preparedness.

Department of Holistic Education

Vidya Bharti, the world's largest non-governmental educational organisation, is committed to nurturing an education system rooted in Bharatiya values while embracing modern knowledge, innovation, and holistic development. To further this vision, the **Department of Holistic Education (DHE)** was established under the **Vidya Bharti Institute of Training and Research Trust.**

DHE serves as a national platform dedicated to promoting value-based education, research, innovation, entrepreneurship, leadership development, skill enhancement, and the effective implementation of the **National Education Policy (NEP) 2020.** Through its diverse academic initiatives and collaborations, the department connects schools, higher education institutions, industry, researchers, policymakers, and society to create meaningful educational transformation.

Among its flagship initiatives, **Shiksha Mahakumbh Abhiyan** stands as the largest academic movement of the Department of Holistic Education. Conceived as a multi-disciplinary, multi-edition, and collaborative platform, it brings together academicians, scientists, innovators, industry leaders, policymakers, teachers, and students to foster dialogue, research, innovation and entrepreneurship, promote Indian Knowledge Systems and contribute to nation-building. Through conferences, conclaves, exhibitions, competitions, publications, and academic outreach, Shiksha Mahakumbh continues to strengthen the vision of **Viksit Bharat @2047** by transforming ideas into impactful educational action.

Why Participate?

Benefits for Students

- Improve Conceptual Understanding
- Develop Logical & Analytical Thinking
- Enhance English, Mathematics & Technology Skills
- Prepare for Future Competitive Exams
- Build Confidence
- Gain National Recognition
- Certificates & Awards

Participation Process

How to Participate?

Step 1 Scan the QR Code

Step 2 Registration

Step 3 Receive Examination Material

Step 4 Offline Examination at School

Step 5 Evaluation

Step 6 Results & Certificates

Step 7 Awards & Recognition

Tentative Timeline

Registration
03-30 November 2026

Examination
Mathematics - 9 December 2026
English - 10 December 2026
Future Tech - 11 December 2026

Results
12 January 2027

Awards

Awards & Recognition

Outstanding Students will receive

Gold Medal | Silver Medal | Bronze medal

E-Certificate for Every Participant

Class-wise and Stream-wise Attractive Prizes

First Prize	₹3,100
Second Prize	₹2,100
Third Prize	₹1,500
Ten Consolation Prizes	₹500 Each

Legacy of DHE Olympiad

The DHE Olympiad journey began with the first-ever **DHE English Olympiad,** organised by **Department of Holistic Education** under the aegis of **Shiksha Mahakumbh 5.0 in collaboration with NIPER Mohali** and **English Connection (a leading educational platform for language enhancement).** Held from **13 to 16 October 2025**, this maiden initiative drew an overwhelming response of over **10,000 students** from **Classes I to X** across **25 schools** in **Punjab, Haryana** and the **Union Territory of Chandigarh**. Conducted at five levels in an objective, OMR-based MCQ format, the Olympiad gave young learners a platform to test their vocabulary, grammar, comprehension and creative use of language, while building confidence and a healthy competitive spirit. The winners were felicitated on **01 November 2025 at the 5th Edition of Shiksha Mahakumbh at NIPER Mohali** in the presence of eminent academicians and dignitaries. The Olympiad strengthened the bond between schools and institutions of higher learning.

Building on this strong foundation, the **DHE Olympiad** now enters a new chapter as the **TEJAS Olympiad** (Talent Exploration for Junior Aspiring Scholars). The first copies of Tejas Olympiad Preparation Books and the Tejas Brochure were released during the closing ceremony of the 6th edition of Shiksha mahakumbh at NIT Hamirpur on 11 October 2026.. Expanding beyond **English** to include **Mathematics** and **Future Tech**, TEJAS carries the legacy forward with a renewed commitment to intellectual growth and value-based learning.
